Unsere Qualität ist Ihre Zufriedenheit

Our quality is your satisfaction

Titan Produkte entsprechen dem Grad 23 (Ti6AL 4V Eli) und sind generell hochglanzpoliert poliert. Sterilisierbar.

Black Titan besteht grundsätzlich aus Titan Grad 23 (Ti6AL 4V Eli) und ist zusätzlich mit einer PVD Titanium Beschichtung geschwärzt. Sterilisierbar.

Steel Schmuck besteht grundsätzlich aus Chirurgenstahl 316L und ist ebenfalls hochglanzpoliert. Sterilisierbar.

Black Steel Produkte bestehen grundsätzlich aus Chirurgenstahl 316L und sind ebenfalls mit einer schwarzen PVD Titanium Beschichtung veredelt. Sterilisierbar.

Gold Steel und **Rose Gold** Schmuck bestehen grundsätzlich aus Chirurgenstahl 316L vergoldet mit einer 18K (Karat) PVD Beschichtung. Sterilisierbar.

Was ist eine PVD Titanium Beschichtung?

Diese Vakuum Beschichtung erhöht die Lebensdauer unserer Artikel und schützt vor Abrieb, Oxidation und anderen Umwelteinflüssen die ständig auf den Schmuck einwirken. Zusätzlich erhöht sie die Verträglichkeit, da dessen Titanlegierung besonders für empfindliche Hauttypen geeignet ist. Nickelfrei und für alle Sterilisationsvorgänge geeignet.

PTFE (Teflon) und **ETFE** sind leichte, thermoplastische Kunststoffe. Sie sind elastisch und bestens für den Erst- und Dauereinsatz geeignet, besonders gut verträglich und mit sehr glatter Oberfläche. Fremdsubstanzen wie z.B. Wundsekret können nur schlecht haften, so wird die Wahrscheinlichkeit von Komplikationen während der Abheilung stark reduziert. Sterilisierbar.

Silikon ist ein synthetisch hergestellter Kunststoff und wird nicht durch körpereigene Substanzen angegriffen. Es ist sehr langlebig und flexibel, zum Ersteinsatz jedoch nicht geeignet. NICHT sterilisierbar.

Glas Produkte bezeichnen einen nicht kristallinen (amorph) Feststoff mit ausgezeichneten Eigenschaften. Vorteilhaft ist dabei vor allem sein Neutral-Verhalten. Glas ist feuchtigkeitgeschützt, UV undurchlässig und korrosionsbeständig. Zudem nimmt Glas keine Gerüche auf und verhindert damit die Geruchsbildung. Im Autoklaven sterilisierbar.

Acryl und **Flexible Acryl** sind hochwertige Kunststoffe mit geringem Gewicht. Vergleichsweise ist das Material sehr langlebig und gut verträglich. NICHT sterilisierbar.

Titanium products correspond to titanium grade 23 (Ti6Al 4V Eli) and are generally high polished. For sterilization.

Black Titanium is composed of titanium grade 23 (Ti6Al 4V Eli) and is additionally equipped with a PVD Black Titanium Coating. For sterilization.

Steel jewelry is composed of 316L Surgical Steel and is also high polished. For sterilization.

Black Steel products are made of Surgical Steel 316L and are also refined with a PVD Black Titanium Coating. For sterilization.

Gold Steel and **Rose Gold** jewelry consists of Surgical Steel 316L with 18K Gold (carats) PVD coating. For sterilization.

What is a PVD Titanium Coating?

This vacuum coating increases the durability of our products and protects against galling, oxidation, and other environmental factors constantly interacting with the jewelry. In addition, it increases the compatibility because its titanium alloy is especially suitable for sensitive skin types. Nickel-free and suitable for all sterilization processes.

PTFE (Teflon) and **ETFE** are lightweight and thermoplastics. They are flexible and well suited for the initial and continuous use, particularly well compatible and with a very smooth surface. Foreign substances, such as wound secretions can adhere poorly, so the possibility of complications is substantially reduced during the healing process. For sterilization.

Silicone is a synthetic plastic and not attacked by the body's own substances. It is very durable and flexible, but not suitable for initial use. Not for sterilization.

Glass products are non-crystalline (amorphous) solid with excellent properties. Advantageous is the neutral behavior. Glass is protected against moisture, UV impermeable and resistant to corrosion. In addition, glass does not absorb odors and prevents odor formation. For sterilization in the autoclave.

Acrylic and **Flexible Acrylic** are high quality with low weight. Comparatively, the material is very durable and well compatible. Not for sterilization.

SUPERNOVA CONCEPT

*SUPERNOVA CONCEPT belongs to you.
From the very first moment.*

Die SUPERNOVA CONCEPT Piercing-Marke entspricht passgenau aktuellen und zukünftigen Verbraucherwünschen. Sie setzt nicht nur in technischer Hinsicht höchste Standards, sondern ist auch modisch top aktuell und dabei ganz einfach zu tragen.

Die Collection ist eine innovative Produktgeneration sowohl für die bestehenden Freunde von Piercing-Schmuck als auch für ganz neue Fan-Gemeinden überall auf der Welt.

Die glatte Oberfläche entspricht genau dem Wunsch der Verbraucher. Die patentierte cadmium-freie IPC-Farb-Beschichtung auf Chirurgenstahl 316L entspricht allen EU Nickel-Verordnungen.

Der herausragende Glanz der Serie und auch aller Zusatz-Collectionen unterstreicht einmal mehr die neuartige Akzentuierung von Piercing-Schmuck. Und das für verschiedenartigste Kunden, ganz gleich in welchem Kulturreis.

Die geschmackvolle Auswahl der SWAROVSKI Kristallfarben bürgt für absolute Individualität, insbesondere in Verbindung mit dem besonderen Glanz der IPC-Farb-Beschichtung.

SUPERNOVA CONCEPT bietet der Einfachheit halber nur ein 1,2 mm Einheitsgewinde für alle Produkte an. Ganz egal wie groß die Kugeln, Stäbe oder Ringe sind.

The SUPERNOVA CONCEPT body jewelry brand suits best to current and future consumer needs. It stands not only for highest technical standards but also for fashion and convenience oriented features.

The Pure White collection is an innovative product generation for the existing and new body jewelry family all over the world.

The smooth surface perfectly matches highest consumer demands. The patented and cadmium free IPC-Color-Coating on Surgical Steel 316L passed all nickel EU-Health requirements.

The outstanding glossy shine of the Pure White collection and all add on colors underlines the new interpretation of body jewelry worldwide.

The tasteful selection of SWAROVSKI Crystals in combination with our glossy IPC-Color-Coating stands for individuality.

SUPERNOVA CONCEPT uses just one standardized 1.2 mm size of the thread for all products, no matter of the size of balls, bars, circulars etc.

STUDEX® SYSTEM 75™ OHRLOCH- & NASEN-PIERCING mit steriler Kartusche

DIE IDEALE ERGÄNZUNG ZUM STECHEN MIT DER NADEL

Erleben Sie die Piercing-Technologie, die sich weltweit millionenfach bewährt hat. Absolut hygienisch sowie einfach und komfortabel zu handhaben: Sie piercen punktgenau und setzen gleichzeitig den Schmuck ein – in einem Schritt. Kaum zu spüren und ohne Nadel. Daher auch optimal für Kinder geeignet.

PRÄZISE
& STERIL

Studex System 75 unkompliziert, sanft und sicher Ohrlöcher stechen - easy, gentle and safe way to pierce

Und so funktioniert es - How it works:

- 1 Reinigen Sie die Ohrläppchen mit einem Alkoholtupfer und markieren Sie die Stelle, an welcher das Ohrloch gestochen werden soll
Clean the earlobe with an alcohol pad and mark the spot where the ear will be pierced.

- 2 Trennen Sie die beiden Blisterverpackungen an der vorgesehenen Perforation ab und entfernen Sie das Siegelpapier.
Disconnect the two blister packs at the intended perforation and remove the paper seal.

- 3 Entnehmen Sie die Kartusche vorsichtig aus der Blisterverpackung.
Remove the cartridge from the blister pack.

- 4 Richten Sie die Ohrsteckerspitze auf die markierte Stelle und drücken Sie die Kartusche leicht zu, um die Ohrsteckerspitze präzise zu positionieren. Drücken Sie die Kartusche bis zum Anschlag durch.
Align the stud tip at the marked spot and press the cartridge gently to position the tip accurately. Press the cartridge through until it stops.

- 5 Lösen Sie den Druck von der Kartusche und ziehen Sie diese vorsichtig senkrecht nach unten ab. Die Pousette wurde automatisch auf dem Stecker positioniert.
Release the pressure of the cartridge and carefully pull it down vertically. The Pousette has been automatically positioned on the stud.

✓ unkompliziert
 ✓ sanft
 ✓ sicher
 ✓ steril

Alle Ohrringe entsprechen sowohl den EU-Richtlinien (Nickelverordnung) als auch den amerikanischen FDA-Richtlinien (U.S. Food & Drug Administration)

THE ORIGINAL – MADE IN GERMANY

SAFETY CARTRIDGES – patentierte Innovation seit 2007

Die Cheyenne SAFETY CARTRIDGES wurden entwickelt, damit deiner Kreativität keine Grenzen gesetzt sind.

Es gibt 56 verschiedene Nadelkonfigurationen für jeden Tattoo-Stil.

Im Vergleich zu herkömmlichen Nadeln, haben Cheyenne Hawk Nadelmodule weniger Bewegungsspiel.

- Zeitsparen & einfache Handhabung

Schnelles und einfaches Wechseln der Nadelmodule auch während der Arbeit problemlos möglich

- Platzsparend

Egal ob im Studio oder auf Convention – Reinigungszubehör ist nicht notwendig. Die Cheyenne Nadelmodule sind sterilisiert, einzeln verpackt und bewusst für den einmaligen Gebrauch gedacht – safe & easy!

- Hygienisch – praktisch

– Cheyenne Hawk SAFETY CARTRIDGES –

Hygiene muss bei der Arbeit am Kunden an erster Stelle stehen. Die Nadelmodule sind so konstruiert, dass es die aufgenommene Farbe nicht weiter zum Grip oder tiefer in die Maschine lässt.

Description/ Specification of Cheyenne Hawk Needles

SAFETY CARTRIDGES – patented innovation since 2007

The Cheyenne SAFETY CARTRIDGES have been designed for you, so the only limits are the ones you set for yourself. The range of needle configurations has now reached 56 versions, in order to perfectly support your tattooing style. In comparison to classic tattoo-needles, the intelligent Cheyenne- SAFETY CARTRIDGE system, ensures that the needles have less range of movement and you can enjoy your perfection

- Spare time

by quickly and easily changing the needle modules, you can get your HAWK ready to use in a matter of seconds and also switch between the 56 possible Cheyenne SAFETY CARTIDGES easily while you work.

- Save space

whether in the studio or traveling to conventions, you have enough to take with you as it is. Skip on the cleaning accessories. Cheyenne-SAFETY CARTRIDGES are sterilised, individually packed and intentionally made for single use – safe & easy!
